## Main equations

$$
\begin{equation*}
a=\frac{N}{A} \tag{1}
\end{equation*}
$$

The equation $\sigma=m a$ follows easily. , see equation (32)

## Nomenclature

$\sigma \quad$ The total mass of angels per unit area, see equation (1), page 1
$A \quad$ The area of the needle point
$a \quad$ The number of angels per unit area, see equation (1)
$m \quad$ The mass of one angel
$N \quad$ The number of angels per needle point, page 1
